

1st Five : A Guide for Parents and Caregivers

The 1st Five Program helps support your child's healthy emotional development by creating a support system of medical practices and community-based services.

1.

Through developmental screens, your child's doctor may refer him or her to 1st Five for free, confidential care coordination.

2.

The 1st Five Program will receive the referral and contact you.

3.

1st Five will link you and your child to appropriate community and healthcare resources.

Your 1st Five care coordinator will follow up with your child's doctor.
