Session Information

INFANT AND EARLY CHILDHOOD MENTAL HEALTH: ASSESSING AND TREATING YOUNG CHILDREN

Kelly Pelzel, PhD - University of Iowa Department of Psychiatry

Objectives:

1. Discuss the unique challenges associated with infant/early childhood mental health work.
2. Explain the role of relationships in assessing and treating young children with mental health problems.
3. Identify three evidenced-based infant/early childhood mental health interventions used in Iowa to treat young children.

BIPOLAR DISORDER IN CHILDREN AND ADOLESCENTS

Carlos Castillo, MD— Seasons Center for Behavioral Health

Objectives:

1. Recognize how to identify Bipolar Disorder in children.
2. Identify important differential diagnosis that may mimic bipolar disorder.
3. Describe how to go about treating bipolar disorder in children and adolescents.

INTRODUCTION TO THE IOWA PEDIATRIC MENTAL HEALTH COLLABORATIVE

Thomas Scholz, MD - University of Iowa Division of Child and Community Health

Objectives:

1. Review the goals and objectives of the Iowa Pediatric Mental Health Collaborative.
2. Discuss trainings to develop capacity of primary care providers to treat children with mild to moderate needs within their medical home.
3. Describe consultation service between primary care providers and University of Iowa Child and Adolescent Psychiatrists.
4. Recommend connection with Regional Pediatric Mental Health Teams for care coordination and family to family support.

EVALUATION AND BEHAVIOR MANAGEMENT OF SEVERE SELF-INJURIOUS BEHAVIORS

Todd Kopelman, PhD - University of Iowa Department of Psychiatry

Mary Roberts, BA- University of Iowa Department of Psychiatry and Autism Center

Objectives:

1. Identify characteristics and causes of severe self-injurious behavior.
2. Describe the potential effects of self-injury on patients and caregivers.
3. Discuss how self-injury is evaluated and treated.

TRANSITION TO ADULTHOOD FOR INDIVIDUALS WITH AN INTELLECTUAL DISABILITY

Jodi Tate, MD - University of Iowa Department of Psychiatry

Objectives:

1. Discuss the changes in funding and support services as adolescents transition to adulthood.
2. Identify information that should be in the medical record as adolescent patients transition to adult providers.
3. Recognize the role parents of adolescents play as their children transition to adult providers.

General Information

STATEMENT OF PURPOSE

The purpose of this conference is to help primary care providers increase their capacity to treat children and youth with mild to moderate mental health needs within their medical home. Conference sessions will include information about identifying, assessing, and treating common child and adolescent psychiatric disorders such as ADHD, Anxiety and Depression.

AUDIENCE

Pediatricians, Family Practice Physicians, Nurse Practitioners, Physician Assistants, Registered Nurses, Licensed Practical Nurses, and Mental Health Providers.
